

If not now – then when?

Why don't we take more care of our planet?
There is only one, Planet B does not exist
If the forests disappear, that's not good
Together we take courage
We must do something - but quickly
Otherwise it's too late!

If not now then when?
We said so to ourselves
Something must be done now
Otherwise we won't be here anymore
For the planet we must stand together

If not now then when?
We said so to ourselves
Now we must act
Changing the world fast
It can work for Planet A!

There is only one planet for us
We all know that, it's nothing new
Isn't that clear to everyone?
You know - we have it in our hands!
A jolt must go through the whole country!
Let's get on with it!

If not now then when?
We said so to ourselves
Now we must act
Changing the world fast
It can work for Planet A!

If not now then when?
If not now then when?
If not now then when?
